MEMORANDUM FOR NATIONAL FOREIGN INTELLIGENCE BOARD

SUBJECT: Unofficial Travel to the Moscow
Olympics, 1980 ☐

1. Looking ahead to the occasion of the 1980 Olympics being held in Moscow brings to mind the security concern for those persons having access to highly sensitive national foreign intelligence who may be planning to attend. The potential for Soviet action against unofficial travelers in the way of provocation and harassment or attempts at compromise or recruitment remains current and real. ☐

2. I would like to pass on to each of you a special reminder of the need and responsibility for adequately briefing and preparing those travelers to Moscow. DCID 1/20 sets forth the policy and requirements for both the intended traveler and the Intelligence Community member organizations in this matter. ☐
